Isfahan, Iran · Remote

SKILLS

Design

UI Design · UX Design · User Flows · Info Architecture · Wireframing · Prototyping · Design Systems · Auto Layout · Dashboards · Responsive · RTL / LTR · Usability · AI-assisted design · Remote & async

Tools

Figma · FigJam · Adobe XD · Photoshop · Illustrator · ProtoPie · Framer · Miro · Maze · Notion · Figma Dev Mode · HTML/CSS basics

LANGUAGES

English — Professional working

Persian — Native

EDUCATION

B.Sc. Computer Engineering
University of Isfahan
2022 – 2026

SUMMARY

Remote-ready UI/UX designer and Computer Engineering graduate (University of Isfahan) with 2+ years of experience designing web products, including an AI-powered planner, a price-comparison platform and a business management dashboard. Most recently a mentor in Quera's AI UI/UX Bootcamp. I turn requirements into user flows, wireframes and interactive Figma prototypes, and build reusable components for clean hand-off. I work in English and Persian, design for LTR and RTL layouts, and communicate clearly in writing. Engineering taught me to think in systems; teaching taught me to make complex ideas simple.

EXPERIENCE

UI/UX Designer — 2024 – Present
Freelance & project-based · Remote

- Designed three web products end to end across productivity, e-commerce and B2B dashboards (Tick, KiBehtar, Vira).
- Translated requirements into user flows, wireframes and high-fidelity interactive prototypes in Figma and FigJam.
- Built reusable components and consistent UI patterns, in light and dark themes, for smooth hand-off.
- Designed bilingual-ready interfaces for right-to-left (Persian) and left-to-right layouts.

Mentor · AI UI/UX Bootcamp — Oct 2026 – Nov 2026
Quera · Remote

- Mentored students through Quera's AI UI/UX Bootcamp, which teaches AI-powered tools and workflows for UX research, prototyping and UI design.
- Reviewed student projects and gave feedback on user flows, wireframes and high-fidelity UI; answered questions and guided hands-on assignments.

Mathematics & Physics Teacher — 2026 – Present
Private tutoring & high school

- Explain complex concepts clearly and adapt them to each student.

Social Media Admin — 2026 – Present
Content & visual design

- Plan content and design posts and stories with a consistent visual identity.

SELECTED PROJECTS

Tick · AI-powered planning app (web)
Day timeline with accept-or-skip AI suggestions, an AI "find a time" flow, week calendar and availability grid.

KiBehtar · Price comparison platform (web)
Search-first home, store price comparison with history and drop alerts, and a chat-style shopping advisor.

Vira · Business management dashboard (web)
Kids' play-centre panel: live check-in with colour-coded timers, one-step checkout and a tiered loyalty club.
