Isfahan, Iran · Remote

### SKILLS

**Design**

UI Design · UX Design · User Flows · Info Architecture · Wireframing · Prototyping · Design Systems · Auto Layout · Dashboards · Responsive · RTL / LTR · Usability · Remote & async

**Tools**

Figma · FigJam · Adobe XD · Photoshop · Illustrator · ProtoPie · Framer · Miro · Maze · Notion · Jira · Figma Dev Mode · HTML/CSS basics

### LANGUAGES

**English** — Professional working

**Persian** — Native

### EDUCATION

**B.Sc. Computer Engineering**
University of Isfahan
2022 – 2026

### SUMMARY

Remote-ready UI/UX designer and Computer Engineering graduate (University of Isfahan) with 2+ years of experience designing web products, including an AI-powered planner, a price-comparison platform and a business management dashboard. I turn requirements into user flows, wireframes and interactive Figma prototypes, and build reusable components for clean hand-off. I work in English and Persian, design for LTR and RTL layouts, and communicate clearly in writing. Engineering taught me to think in systems; teaching taught me to make complex ideas simple.

### EXPERIENCE

**UI/UX Designer** — 2024 – Present
Freelance & project-based · Remote

- Designed three web products end to end across productivity, e-commerce and B2B dashboards (Tick, KiBehtar, Vira).
- Translated requirements into user flows, wireframes and high-fidelity interactive prototypes in Figma and FigJam.
- Built reusable components and consistent UI patterns, in light and dark themes, for smooth hand-off.
- Designed bilingual-ready interfaces for right-to-left (Persian) and left-to-right layouts.

**Mathematics & Physics Teacher** — 2026 – Present
Private tutoring & high school

- Explain complex concepts clearly and adapt them to each student, using practical examples and problem solving.

**Social Media Admin** — 2026 – Present
Content & visual design

- Plan content, design posts and stories, and keep the page's visual identity consistent.

### SELECTED PROJECTS

**Tick** · AI-powered planning app (web)

Designed a day timeline with accept-or-skip AI suggestions, an AI "find a time" flow with ranked slots, a week calendar, and a paint-your-hours availability grid. Dark theme.

PRODUCT DESIGN · AI UX · DARK UI · PROTOTYPE

**KiBehtar** · Price comparison platform (web)

Designed a search-first home, a price comparison page with price history and drop alerts, a chat-style shopping advisor, categories and an account hub. Soft glass style.

SEARCH UX · INFORMATION ARCHITECTURE · E-COMMERCE

**Vira** · Business management dashboard (web)

Redesigned a kids' play-centre panel: live dashboard, check-in list with status-coloured play timers, one-step checkout, packages, and a loyalty club with tiers and rewards.

DASHBOARD · REDESIGN · LOYALTY UX · B2B
